What is Viridis?

Viridis is a water-based and biodegradable disinfectant and sanitiser. Made from natural and sustainable ingredients, Viridis is uniquely-formulated to provide enhanced protection against a broad spectrum of microbes including viruses, bacteria, fungi, moulds and yeasts. Through our disruptive Residual Barrier Technology, Viridis can remain effective up to 24 hours after application.

How it Works

Through our unique formulation of carefully-selected active ingredients with strong biocidal properties, Viridis is able to kill 99.999% of bacteria, viruses, yeasts and moulds after application.

Effective against microbes

Safer to use

Longer-lasting protection

Environmentally-friendly
